LOCAL AND GENERAL NEWS.

30-HORSE-POWER MOTORS.

They will be Used by the Decatur Line—Proposed Extension.

Frank E. Snow, president of the Decatur Electric Street Railway, and W. A. Jackson, a director, who spent yesterday in Decatur, left last night for Detroit, Mich. In company with Manager Martin these gentlemen consulted about extensive improvements of the property, and decided that in addition to the 30-horse power motors and new trucks for the cars—and, by the way, the trucks will be lower than the ones now in use—the company will extend its line in several directions as soon as the necessary arrangements can be made. The proposed extensions are as follows: From Wood street north on Water to East Main street, one block; from corner of Wood and Water streets east on Wood to Broadway, south on Broadway to Cantrell street, east on Cantrell to city limits; from corner of North Edward and Cerro Gordo streets west on Cerro Gordo to Monroe street, south on Monroe to Eldorado, west on Eldorado to the fair grounds; from corner of Broadway and East Cerro Gordo streets north on Broadway to the park of the Decatur Trotting Association.

The best of material will be used in the construction, and eight new summer cars, with numberless trailers will be provided. Possibly the new cars will be built by the Wayne Bros. city. It is the special desire of Manager Martin that the cars shall be made in Decatur.

A PARK POSSIBLE.
An effort will be made by Manager Martin to secure a lease on the fair grounds, and if he succeeds the company will convert the picturesque grounds into a beautiful park, which cannot fail to become a proper place of resort.

It is gratifying to note the lively interest the Short Line officials take in Decatur. They agree with us that Decatur is the liveliest city of its size in the country, and they have every promise of satisfactory dividends by investments here.

A Splendid Comedy.
Those who go to the Grand Saturday night will witness a splendid comedy in "The Two Old Cronies," of which the Omaha Republican said:

"The very faithful operative extravaganza of 'Old Cronies' was given at the Grand Opera House last evening to a fair audience. That those present were delighted was attested by the generous applause accorded to the members of the company. Laughter and applause was the order of the evening, and recalls that would not be denied were frequent. Messrs. Wills and Henshaw and Miss Ten Broeck are the leading fun-makers of the company, and they kept the moment at high pitch all the evening. There is more fun to the minute in the 'Two Old Cronies' than there is in nine-tenths of its kindred plays on the stage to-day. The musical gems, interspersed through the comedy, are the choicest selections from the brightest and most popular of the operas that have of late so pleased the public. Those who want to be highly entertained musically, and enjoy three hours or so of pure and innocent mirth, should attend the matinee this afternoon or the closing performance this evening.

Their Business Booming.
Probably no one thing has caused such a general revival of trade at Dr. A. J. Stone's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Croup, colds, asthma, bronchitis, cough, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

Shortage on Corn Crop.

A dispatch from Springfield says: "The statistical report of the Secretary of the State Board of Agriculture, just issued, reviewing the products of the state for 1889, makes a somewhat startling statement relative to the corn yield, which amounted to 217,880,589 bushels, the estimated value of which was \$38,537,017. The cost of production, as returned by 1,000 correspondents, is given at \$9.75 per acre, or a total of \$68,572,872, nearly \$10,000,000 in excess of the value of the crop. In twenty-two counties the profit was \$2,526,304, while in the remaining eighty counties the loss was \$12,592,127. Seven per cent. interest on the amount invested in the land was taken into account in estimating cost of production.

The area devoted to winter wheat is reported as seven per cent. larger than for the previous year, and the condition of the crop much above the average. The Russian fly and wire worm are doing some damage to the crop in a few Southern counties, but on the whole little damage has been done. The same conditions govern winter rye. The year 1889 has been an unusually productive one in other crops. Not only has the yield been good, but the quality has been above the average, and the farmers of the state have reason to congratulate themselves upon the present condition of agricultural affairs.

Referring to the condition of live-stock, the report shows the number of hogs reported for the year to be 333,391 less than for 1888. There were marketed 3,068,406, bringing \$27,348,904, or \$10,000,000 less than for the previous year. In cattle, 2,368,191 were reported, of which 23 per cent., or 551,571 were marketed, bringing \$18,378,190, or about \$2,000,000 less than the amount of 1888. The number of sheep reported was 666,723, of which 22 per cent., or 146,675, were marketed, bringing \$17,756, a slight increase over 1888. There is some complaint of disease among farm stock, but as a rule it is healthy, and with plenty of corn and late pasturage it is probable it will come through the winter in good condition.

COMPULSORY SCHOOL LAW.

It Seems to Work Quietly and Most Beneficially in Springfield.

The attendance in the public schools of the city has been reduced somewhat lately by the prevalence of the grip, but still the enrollment for January shows 3,100 pupils, which is nearly 200 above the number for October last. The operation of the compulsory school law in the city seems to have been comparatively satisfactory, and the number between seven and fourteen years, who are out of school has been materially reduced. The law is enforced in a very conciliatory manner, and scarcely any one has been found who manifested a disinclination to comply with the law. Many have been found, however, who were actually unable to clothe their children for school and provide books, but in nearly every instance these requisites have been supplied them. In securing clothing in such cases, the organized charities of the city have been of inestimable value. No worthy cases have been reported to the secretary of that organization which have not been relieved, and a large number of poor children have thus been helped into the public schools through the gifts of benevolent people who gave simply when asked, without knowing what good their gifts were doing. Of course it will take some time to reach all whom the compulsory law should reach, but thus far the operation of the law in Springfield has been very successful, and, so far from proving a hardship in any case, it has in many instances, as indicated above, been an exceedingly helpful measure, aside from what it is doing as an educational influence.—Springfield Journal.

MAY BE MADE IN DECATUR.
The Automatic Check Rower on Exhibition.
The special attention of Decatur citizens and farmers in particular is called to the Wooding automatic check rower attachment for corn planters, now on exhibition at the carriage and agricultural implement establishment of E. G. Allen & Bro. on Wood street. All are invited to call and see it. It is an entirely new thing and strikes the beholder as being at once simple and practical. The inventor claims that it will do a third more planting in a day than any other check rower made. It does not require a wire or rope. It is operated by what are known as "check spokes," which operate the drop in an automatic manner. The invention must be seen to be appreciated.
The inventor is backed by Mr. Sawyer, a wealthy resident of Logansport, Ind. He is a friend of the Breneman Bros. of this city, who take a personal interest in the matter. Sixty of the Wooding check rowers have been made and all are in successful operation. The one at E. G. Allen & Bro.'s store will be placed in charge of a Macon county farmer, and there will be a public exhibition of its merits.
It is the intention of the owners of the Wooding to have the check rower manufactured in Decatur, the home of the check rower interests, and in all probability this enterprise will be another factory boom for our city.
New Feed Store.
Mr. Wm. Koesch has opened a feed store in the rear of T. W. Koesch's grocery store, No. 125 East Main street. He will keep all kinds of mill feed, corn and oats, hay, straw, etc., and will deliver the goods to his customers.

FRIDAY EVE., FEB. 7, 1890.

Buried With Military Honors.
The impressive funeral services attending the burial of the late Edwin Philbrook were held this forenoon at St. John's Episcopal church, in the presence of a large assemblage of friends, among whom were Mr. and Mrs. F. J. Philbrook, of Normal, Miss Mary Philbrook, of Bloomington, John Crocker and Miss Louise Crocker, of Macon, and Mrs. Jennie Gilman, of Lincoln, Ill. Members of the Grand Lodge, G. A. R. No. 11, were present in a body to pay their respects to the deceased comrade who had been an officer of the Post. There were numerous floral offerings. The beautiful Episcopal burial service was used by the officiating clergyman, Rev. Montgomery M. Goodwin. At the close of the church service the long funeral cortege formed, with the G. A. R. Post as an escort, and moved to Greenwood Cemetery, where Commander Roberts directed the final service with Comrade R. P. Lyle as chaplain. The body was laid at rest with military honors, closing with the firing of a volley over the grave. The pall bearers were, R. L. Evans, Allen L. Lutz, J. H. Conrath, W. J. Wayne, G. R. Steele and C. M. Imboden.

Under the Wheels.
Allan Parr, the 19 year old son of Mr. and Mrs. William Parr, residents of East Wood street, in attempting to board Illinois Central freight train No. 10 last evening, slipped and fell in such a manner as to catch his right foot under the car wheels, the foot being almost severed, when he was picked up by friends. He was carried to his home and Dr. Chenoweth and Myers summoned; after administering chloroform to the unfortunate young man, the doctors amputated the limb four inches above the ankle. This is but another incident in which the foolhardy habit of jumping on trains has caused the maiming of a person for life. It is to be hoped that we may yet see the time when the practice is stopped, if not by one source by another.

THE BIG SHOE FACTORY.
Hurrah! Hurrah! Decatur Captures It.
Heuver & Gliddon Select a Permanent Location in Our City.

Sample of the Heuver & Gliddon Shoe.

A Contract Drawn up and Approved for the Removal.
The Building to be Put up Under the Direction of Mr. Gliddon.
United Action of Business Men Wins the Victory.

Good news, dear people! Last night Messrs. Heuver & Gliddon decided to locate their extensive shoe factory at Decatur, and the articles of agreement or contract were drawn up and approved.
The shoe factory is a fixed fact, and Decatur has good cause to plume itself upon the success which has attended the efforts of its citizens in adding to its productive industries a most valuable improvement. Our people have always been impressed with the belief that the more smoke stacks which rear their heads, the better it will be for our whole population. People are an absolute necessity to a town—people who are employed in producing something that the world needs—people who have employment at wages which enable them to support their families. It is not "retired" people, wealthy people who have no need to labor, who make a town, and if we had none but these our prosperity would be but feeble, though we owe much to our wealthy residents of enterprises. What we need to bring prosperity to Decatur is the means which will enable men and women to make their living by their labor, and build up their own prosperity as well as add to the general wealth. There is no wealth producer that compares with labor, not even a gold mine will equal it. Therefore, the shoe factory is equivalent to the finding of a gold mine, for everybody gets a share of the benefit. The merchant sells more goods because its operatives have to be supplied with groceries and dry goods and clothing, and the butcher and miller are benefitted by the increased demand created by the men and women who are enabled to buy flour and meat out of the results of their labor. And so it might be added is every man who needs anything that enters into the multiplied wants of a community that finds employment and wages in our factories and shops.
The citizens whose efforts to adversity our industries have been crowned with success in the securing of the shoe factory are, therefore, public benefactors. They can do still more if they will but continue their united efforts and work with an eye single to the one purpose of building up our industries. The efforts that have been made in this direction have been singularly well planned, and the unanimity displayed give the true secret of success. What we want is the unanimous action of our people. "A long pull, a strong pull and a pull all together" is what will bring success, and now is a good time to keep up the movement.
LOOKING AT SITES.
During yesterday afternoon two fine carriages were secured by Chairman Young of the site selecting committee, and with the members of the committee and George W. Powers and C. W. Battles, Messrs. Heuver & Gliddon were shown various desirable sites for the factory building. There was no final decision reached, but the visitors soon learned that Decatur had plenty of good locations for their business, and any other factory that might come this way.
ELECTRIC COURTESIES.
Through the kindness of President Shellabarger and Manager Ferguson the courtesies of the Citizens' company were extended to the visitors and a number of citizens for a trip over the line. The vestibule car was brought up on Lincoln Square at 4 o'clock and filled by the visitors and citizens. A trip was first taken over the West Main street line to Oakland Park during which the visitors were shown the beauties of the residence portion of that section of the city, and afterwards a trip was taken over the Condit and Water street extensions, where the newer portions of the city were pointed out, and even to many of the Decatur party the wonderful growth of the city in the last few years was in the nature of a revelation. A stop was made for a few minutes at the end of the Condit street line, to show the rapid growth of the city in a direction that is entirely new. A trip was then made over the East Elkhart extension to the East Park Boulevard, the farthest limits reached in that direction by the street railway. The visitors were loud in their praises of the rapid growth of Decatur, and could not repress their enthusiasm, which broke out again upon visiting, later, the harness factory of Starr & Son, and the gas works and electric light plant, as well as the Grand Opera House, which was a vision of beauty that was a surprise to the visitors.
THE NIGHT MEETING.
By previous arrangement Mr. Heuver and Mr. Gliddon met the committee, Messrs. F. M. Young, L. Burrows, K. H. Roby, J. M. Clokey, James Millikin and C. A. Ewing, in the parlor at the St. Nicholas Hotel last night. Mayor Kansas, D. S. Shellabarger and George W. Powers were also of the party. The Chester gentlemen and the committee felt that meeting was to decide positively the question of removal, and it did. Soon after 10 o'clock the matter was definitely settled on points suggested by the factory gentlemen, who made a rough draft of the contract which was agreed to by the committee on behalf of the citizens of Decatur. All of the details were arranged with the exception of the site, which point was left for settlement to-day, and as the ground will have to be purchased

from the subscription of \$11,000, it will be seen that there will of necessity be some delay in closing the purchase. Heuver & Gliddon have indicated the location they desire and now it is the duty of the committee to secure the ground, which will be put up a three-story brick building, 35x115 feet, with basement. Mr. Gliddon to come here and superintend the construction of the same in person.
As stated in last evening's edition the gentlemen are to remove from Chester about July 1. They have been there nearly four years of their successful business career of 20 years, and in Decatur they have a permanent location, where, as Mr. Gliddon said to the Republican reporter last night, "I expect to live and die. I like Decatur better than any city I have seen. Litchfield is a busy little place, but Decatur is a busy big city, with every evidence of solid growth and stirring enterprise. At Litchfield I can get a big lot for the money I would have to pay here for a foot front. There is enough for me. Where land is valuable there is something behind it."
"Yes," said Mr. Gliddon. "We are Republicans and protectionists, of course. Mr. Heuver has a large family, and I have a wife. I am sure we will like Decatur in every respect, and I am glad the question of location is so satisfactorily settled."
In the hotel office last night there was a general display of lively enthusiasm over the pleasing decision, and in a peculiar manner orders were placed at once for Decatur made shoes, which will join with the check rowers and various other manufactured articles in giving Decatur a good name abroad far and wide.
The shoe factory will give lucrative employment to 100 to 150 people; many of our people will find work to do at once, new homes will be required, and every branch of trade benefitted by this factory capture.

Decatur has done splendidly in this sharp contest against 75 other cities, one of which was Springfield, Ohio, where it took the citizens of that city about three weeks to raise the \$11,000 that energetic Decatur produced within 24 hours.
The capture of the shoe factory has been achieved by the united, determined action of our people, who were stimulated to actively largely through the persistent personal efforts of Secretary Clokey, of the Decatur Board of Trade, aided by George W. Powers, who had personal knowledge of the solid standing of the firm of Heuver & Gliddon. The effect of this important capture can not be estimated. It means much for Decatur. It is known that four other industries, one employing 200 men, are knocking at our doors, and Decatur's grit in the shoe factory capture cannot fail to impress seekers for location that this city is the point they are looking for. Let them come. Give them hearty welcome, and don't forget to hustle to everybody work together for the same object—the capture of more factories.
SPREADING THE NEWS.
It is suggested by members of the Decatur Board of Trade that all Decatur people should unite in spreading the news of Decatur's growth by sending copies of the local papers to their friends in other cities, so that general attention may be directed to our advantages.
Poor old Springfield, Ill. very ill.
Poor old Bloomington! where is she?
Poor old Springfield, Ohio, in the soup.
Poor old Litchfield! ditto Luncheon.
The Baptist Church.
The interest in the meetings at this church is increasing in every way. The congregations nearly fill the ground floor every night. Dr. Voshough preached a sermon last night that moved the people more than any he has delivered this week. Quite a number rose for prayers, most of them being men, and three were converted. To-night a number of persons will be received into the church. The pastor preaches at 7:30, and Mrs. Spaulding and Miss Randolph will furnish some fine music. All the seats are free.
The Deepest Snow.
The heaviest snow fall of the winter came this morning, and at an early hour the merry jingle of the sleigh bells was heard in different quarters of the city. It is a heavy wet snow, and consequently the electric cars have been made to suffer inconveniences with which they battled successfully. Cars are running right along regularly.
Decatur Musical College.
The rooms of the Decatur musical college were filled last evening by friends of the college. It was the thirty-ninth recital given by the pupils and was a most interesting programme. The following took part: Misses Gertrude Griswold, Lola Bishop, Nellie Gier, Pauline Johnson, Sarah Imboden, Nettie Stampf, Emma Cain, Maude McCune, Jessie Steele, Lelia Keeler, Laura Mae Grindol, Maude Leflingwell, Maria Ewing, and Masters Roy Shimer, Harold Young and Milton Lutz.
